

MEDICAL SERVICES OFFERED, CONDITIONS TREATED

Kansas City Direct Primary Care is a full-spectrum primary care office staffed by family physicians and family nurse practitioners. Our training allows us to care for a wide variety of chronic, acute, and urgent conditions. The list below should serve as an example -- though not exhaustive -- discussion of the conditions we are able to treat.

We're unique because we do not bill insurance companies for our services; we work directly for you (and only you)! By not billing insurance companies, we are also able to both save you money and provide fair, transparent pricing. Please email (info@kansascitydirectprimarycare.com) or call us (913-730-0331) if you have any questions about our pricing or services.
